## THE PROBLEM

1 in 4 Americans live with  
at least one disability\*  
*\*cdc.gov*

Unemployment rates of  
more than 80%\*

\$1100 avg rent & less  
than 3% vacancy rate in  
Lancaster Co.\*

*For adults who live with disabilities, unemployment rates of more than 80% and lack of affordable housing are realities that too often lead to compromised independence and marginalization.*

Hope Served believes that we each share the dignity of being made in the image of our Maker while acknowledging the struggles that are a part of the human condition. Hope Served recognizes the need to provide hope and support in the areas of career development, housing

opportunities, and community participation so that adults living with disabilities can realize greater levels of independence, higher qualities of life, and ultimately serve others through their purpose-filled lives as essential and integral members of their local communities.

# OUR VISION

*Our dream is of a transformed world where people of all abilities work together to promote dignity and solidarity, along with the erasure of biases. Hope Served aims to be a catalyst where one's identity, purpose, security, and belonging is found in Jesus and supported by local community.*

## Live-Work Environments
